Steel Automatic High Speed Strapping Machine 23-1/8 In. x 48-3/8 In. x 58 In. Gray

MODEL ASM-3123

Packaging Equipment / High Speed Strapping Machine

PRODUCT OVERVIEW

The high speed strapping machine is a productive solution to most polypropylene strapping tasks. The automatic arch strapping machine features the "auto-feeding" function that automatically feeds polypropylene strapping to arch and is ready for each application. The "auto-positioning" system automatically positions and secures the polypropylene strapping efficiently for each cycle. The "jam-free" feature ejects missed strap cycles and resets the unit. The user friendly controls allow the operator to choose between panel mounted controls, foot pedal, or table top ball switch. Actual production will vary depending on package size, chute size, and operator dexterity. The unit has heat welded polypropylene strapping, easy access for reloading strappin...

KEY FEATURES

- Solution to most polypropylene strapping tasks
- Auto-feeding automatically feeds arch and is ready for each application
- Auto-positioning automatically positions and secures efficiently for each cycle
- Jam-free feature ejects missed strap cycles and resets the unit
