Steel Hydraulic Elevating Cart 330 Lb. Capacity Blue

MODEL CART-330

Ergonomic Solutions / Hydraulic Elevating Carts

PRODUCT OVERVIEW

A hydraulic elevating cart works well in a variety of environments. Material can be easily loaded onto a cart from a table and then lowered/raised to the preferred height to unload. The foot pump mechanism allows for the exact placement which minimizes any bending and twisting during the manual labor process. During movement, the casters roll smoothly between areas reducing the chance of any jostling. Powder coated steel construction for an added baked in and tough finish.

KEY FEATURES

- Poly-on-poly casters for smooth transition between areas
- Wide range between maximum raised and lowered heights
- Platform size gives stability to products both large and small
- Single foot pump operation for precise platform positioning
