Steel Spring Grip Fork Mounted Drum Gripper 34 In. x 27-3/4 In. x 9-1/2 In. 1000-1500 Lb. Capacity Black

MODEL DGS-AG

Drum Handling Equipment / Spring Grip Fork Mounted Drum Gripper

PRODUCT OVERVIEW

The drum gripper creates a functional and efficient way to transport drums from workstation to workstation. The welded steel construction with a baked-in powder-coated toughness, durable and long lasting in the harshest of environments. Once the drum gripper arms are placed around the drum, simply use the ratchet to tighten the arms in place for a firm hold on the drum. After moving the drum to the desired location, release the ratchet tension and in-ratchet until drum is free. The unit has a fordable design for less storage space when not in use. Works with steel, plastic, and fiber drums.

KEY FEATURES

- Pick up steel drums without leaving the seat
- Knuckle gripping system grips tightly and lifts in the air
- Drum is automatically released by lowering the forks
- Features hinged folding design for storage
