Steel Self Elevating Spring Table 20 In. x 20 In. 230 Lb. Capacity Blue

MODEL ETS-230

Ergonomic Solutions / Self-Elevating Spring Tables

PRODUCT OVERVIEW

The self-elevating table is designed to automatically raise or lower as materials are removed or added to the platform, keeping material at an ergonomic work height. It increases productivity while reducing potentially harmful bending and twisting motions. The counter balance springs can easily be added or removed to adjust weight-to-height sensitivity. This feature allows the user to conveniently set the table to fit each application. It rolls smoothly on polyurethane casters.

KEY FEATURES

- Designed to automatically raise or lower in order to keep material at an ergonomic work height
- Increases productivity while reducing potentially harmful motions
- Counter balance springs can be added or removed to adjust weight-to-height sensitivity
- Features allow the user to conveniently set the table to fit each application
