Steel Hinged Guard Rail 41.875 In. Length 3 Ribbed Gate Yellow

MODEL GR-F3R-GBS-4-YL

Protective Barriers / Structural Guard Rails (drop-in and bolt-on style)

PRODUCT OVERVIEW

Sometimes personnel need access to what a guardrail is protecting. A swinging guard rail gate is the perfect solution. When closed the gate acts just like the rest of the guard rail, but it has a sleek connection and can swing freely. Simple opening and closing for quick entry and exit. Steel construction maintains strength during the wear and tear of daily use. Powder-coated finish for durability and strength. Hardware is included. Additional posts are available and sold separately. If adding a rail to an existing rail and post section, only a single post is needed.

KEY FEATURES

- Designed for simple opening and closing
- Yellow baked-in powder-coated finish for added toughness
- Three ribbed design for added height protection
- Gate includes rail with black hinge brackets
