Steel Roller Work Positioner 21 In. Roll Diameter 800 Lb. Capacity Blue

MODEL HYD-RR-35

Ergonomic Solutions / Hydraulic Roll Lifter & Roller Work Positioner

PRODUCT OVERVIEW

The roller work positioner is a wonderful addition to material handling and shipping facilities. The positioner allows the user to transport heavy large rolls of material with ease. The simple cradle design of the platform prevents any movement during transporting. A foot pump operation gives the user the ability to adjust the height to an exact measurement for smooth loading/unloading. The attached handle stands at an ergonomic height to diminish the chance of bending during operation. For best use, simply slide the product onto the cradle platform and use the foot pump to adjust the height that best suits the environment.

KEY FEATURES

- Open platform for 3 sided use
- Manual design for precise positioning
- Large capacity for easy lifting
- Smooth rolling on a variety of surfaces
