High Density Polyethylene Intermediate Bulk Container 330 Gallon Capacity White

MODEL IBC-330

Drum Handling Equipment / Intermediate Bulk Containers

PRODUCT OVERVIEW

The intermediate bulk container, a space-saving storage container, is great for multi-trip applications. It is designed for storage of both hazardous and nonhazardous content, the base is made from both steel and plastic. It includes inner storage tank made for excellent durability and long life from harsh environments, a butterfly valve with a durable, synthetic fluorocarbon rubber gasket, and a top fill cap with bung. Complete unit is FDA compliant and UN approved.

KEY FEATURES

- White plastic with UV-blocking additive provides added fluid protection
- Unique design is easy to fill, easy to stack and easy to load
- Hot-dipped galvanized steel cage is consistent with food code requirements in non-direct food contact environments
- UN 31/ha1/Y approved
