Steel Folding Mezzanine Ladder with 115V Power Storage 84 In. Mezzanine Height 23-5/8 In. Step Width 350 Lb. Capacity Blue & Yellow

MODEL LAD-FM-84-PSO

Industrial Ladders / Mezzanine Ladders (face mounted/retractable)

PRODUCT OVERVIEW

The powered mezzanine ladders are used for infrequent usage to access mezzanines. They are quickly powered into climbing angle and back into stored position. The wheels roll on the ground when ratcheted, and the handrails mechanically rise into climb position when the ladder locks into position. Quickly extend and retract the ladder with the handheld pendant. The mezzanine ladder allows for quick installation. The unit keeps a small distance from the wall for compact storage. Customer must provide their mezzanine height at the time of purchase. Baked in powder coat blue and yellow finish for added toughness.

KEY FEATURES

- Great for condensed work areas
- Treaded step design for sure footing
- Attached casters provide simple maneuvering
- Collapsible handrail
