Steel Loading Dock Guard 58-7/8L In. x 60-3/8H In. x 22-15/16W In. Yellow/Black

MODEL LDG-3555-YL

Loading Dock Equipment / Loading Dock Guard

PRODUCT OVERVIEW

A bollard system is a great way to protect high traffic areas. With an upright design, two bollard posts stand on each side of the unit being guarded. Attached to those two posts are dock bumpers to minimize any possible damage that may occur if contact is made. The steel construction provides the unit with strength and durability throughout daily use. Powder coated finish for baked in added toughness.

KEY FEATURES

- Provides security for dock lifts
- Quickly mounted to a variety of surfaces
- Robust construction
- Bright finish for visibility
