Steel Low Profile Drum Dolly with Scale 38-1/2 In. x 31-1/2 In. x 49-1/4 In. 800 Lb. Capacity Black / Yellow

MODEL LO-DC-SCL

Drum Handling Equipment / Low-Profile Drum Caddies with Bung Wrench Handle

PRODUCT OVERVIEW

Why bother taking the time to weigh drums at a designated location when you can do it on the go. The low profile drum scale allows the user to weigh the drums while they are being transported. Simply maneuver the drum onto the platform and a read-out of the weight will appear on the screen located near the handle of the dolly. Powder coated black and yellow for increased toughness during daily use. Poly casters are included for simple and a smooth rolling across a variety of surfaces. When not in use, the handle folds down onto the loading platform for a simple storage.

KEY FEATURES

- Large platform to fit different sized drums
- Driving handles at ergonomic height
- Large readout screen
- Small storage footprint
