Stainless Steel Piston Pail Pump 1 In. Bung 8-5/16 In. x 2-7/16 In. x 62-5/16 In. Silver

MODEL PAIL-PST-SS

Drum Handling Equipment / Piston Pail Pumps

PRODUCT OVERVIEW

A pail pump is designed for dispensing and transferring liquids out of a five (5) gallon pail. This piston pail pump is constructed of stainless steel. Ideal for transferring soluble, corrosive, volatile and aggressive chemicals, such as esters, ketone's, alcohols, bases, alkali, acids, hydrocarbons, chlorinated hydrocarbons and water based liquids which are compatible with pump component materials. Also suitable for transferring petroleum based fluids of light to medium viscosity, such as automotive additives, diesel, lube oils, kerosene, solvents, thinners, benzene, cleaning solutions, fuels oils, transmission fluid, machine oils, motor oils, etc. Not recommended for: ammonium chloride, aqua Regis, bromine water, calcium chloride, trichloroaceti...

KEY FEATURES

- Pump design quickly dispenses and transfers liquids
- Lightweight design can be easily transferred
- Stainless steel construction offers long lasting use
- Pump construction can handle most liquids
