Steel Pallet Truck Hoist 37-7/16 In. x 30 In. x 77-1/4 In. 500 Lb. Capacity Blue

MODEL PJ-LIFT

Overhead Lifting / Pallet Truck Hoist

PRODUCT OVERVIEW

The pallet truck hoist is an affordable and practical alternative for lifting and lowering loads to and from elevated work stations. It provides workers with a mobile jib that quickly secures to a standard twenty-seven (27) inch by forty-eight (48) inch pallet truck. Once installed, the pallet truck can still be used with most pallets and skids allowing for transport of heavy pallet loads while retaining the ability to lift and lower loads to and from the pallet. It uses a clutch less cable winch with cable for easy lifting and lowering. Lower load onto forks before moving. This pallet truck hoist has a steel construction with baked-in powder-coated toughness.

KEY FEATURES

- Alternative for lifting and lowering to and from elevated work stations
- Mobile jib quickly secures to a standard 27" x 48" pallet truck
- Features a clutch less cable winch for easy lifting and lowering
- Baked-in powder-coated toughness
