Ergonomic Solutions / Low Profile Pallet Trucks

PRODUCT OVERVIEW

The Low Profile pallet truck can enter a pallet from all four sides. The all steel frame is reinforced to handle heavy loads. Wide loop handle control with lift, neutral, and lower functions provides fingertip control. The unit has lifetime lubricated bearings and a hydraulic system that has a hard chrome plated pump piston with polyurethane seals. The suspension system has heavy-duty thrust bearing. This pallet truck comes complete with adjustable push rods, polyurethane wheels, steel load rollers, and a red powder coat finish.

KEY FEATURES

- Wide loop handle offers easy unit maneuverability
- Fingertip lever provides an easy lift, lower and neutral operation
- Suspension system has heavy-duty thrust bearing for long lasting use
- Lifetime lubricated bearings never need maintenance work
