Factory Installed Carousel Rotation Counter Weight For Stretch Wrap Machines

MODEL SWA-COUNT

Packaging Equipment / Powered Stretch Wrap Machines

PRODUCT OVERVIEW

A counter balance weight is an important addition to the powered stretch wrap machine. The counter balance weight protects the stretch wrap machine from having inadequate weight distribution during use. As the wrapping takes place the counter weight moves to properly match the load distribution. The weight keeps the mast in tune with the fluctuation of the wrap as the items become more wrapped and the carousel turns. This minimizes possible accidents and damage during use.

KEY FEATURES

- Diminishes possible weight instability
- Durable cast construction
- Built-in lifting eye
- Factory installed for immediate use

CORE PRODUCT DATA

ASSEMBLED WEIGHT **27 lbs**	ASSEMBLED SIZE **10.5" W x 3.375" L x 3.375" H**	SHIP WEIGHT **27 lbs**
PACKAGE 1 SIZE **--**	COLOR / FINISH **Black**	FREIGHT TYPE **LTL Palletized**

AVAILABILITY Available **QUICKSHIP: --**
