Steel Single Fork Skid Positioner Lifter 800 Lb. Capacity Yellow / Black

MODEL VHPS-NM-800-11

Ergonomic Solutions / Single Fork Skid Positioner Lifter

PRODUCT OVERVIEW

A single fork skid positioner lifter is a new design of an old classic. Instead of the usual two skinny forks to lift open bottom skids, crates, and baskets this model has one large centered fork. The fork is open on 3 sides for easy loading and unloading of products. The high handle not only allows for steering, but as the pumping mechanism to raise and lower the height of the fork. Unit rolls on casters and includes a foot brake for secured positioning during transition periods. The compact design takes up minimal storage space, when not in use.

KEY FEATURES

- Narrow leading base to fit in tight spaces
- Manual hand pump for precise positioning
- Smooth rolling a variety of surfaces
- Brightly colored for clear visibility
